

**ST NICHOLAS CHURCHYARD**  
**SOME MILITARY MEN THAT REST OR ARE COMMEMORATED THEREIN**

The following list is by no means comprehensive. Wickham churchyard holds a greater proportion of military men than most, due to our proximity with Portsmouth and its Naval Dockyard. Thus, over the years, many military men with the means to do so settled in our village, a practice that continues to this day. More information on the following list and of other people resting in our churchyard can, of course, be obtained from St. Nicholas Church records and publications.
